MJ31:	Unauthorized use equipment or mail	Letter with hidden pocket/methamphetamine/video and photos	HDSP vault
MJ53:	Poss. / Sale of Intoxicants	Letter with hidden pocket/metamphetamine/video and photos	HDSP vault

**REPORT OF VIOLATION**

On December 12, 2014 I Correctional Officer Satterly assigned to the Security Squad at High Desert State Prison discovered the following. At approximately 2015 after picking up the inmate mail that's been place on mail monitor I Correctional Officer Satterly noticed a piece of mail addressed to Inmate Melnik #30576. Because of a recent incident discovered by Correctional Officer Solano (IR-2014-HDSP-003139) I Correctional Officer Satterly proceeded to open this letter. After opening the letter I scanned the letter looking for a little pouch used like the above referenced Incident Report. The pouch is made out of a scan and taped to look like a normal letter. As I Correctional Officer Satterly turned to the back of the fourth page I discovered the taped pouch. I immediately notified Senior Correctional Officer Mumpower which helped open the pouch. After carefully peeling back the tape a small plastic bag with a crystal like substance was discovered. Pictures of the envelope, pouch, and bag were taken for evidence. The unknown crystal like substance was weighed and had a fluctuated weight between 1-2 grams. At 2020 Senior Correctional Officer Mumpower conducted a narcotics test using the Narcotics Identification Kit. The tests that we're used are Test A Marquis Reagent Lot #2098227 and Test U Methamphetamine Lot #2101022. Both of these tests are used in the identification of Amphetamines and Methamphetamines. While the substance was being tested video was taken of the process by Correctional Officer Mercado and was also witnessed by Correctional Officer Ronczka and myself. As Senior Correctional Officer Mumpower placed a small sample into Test A sealed it and broke the ampule inside. The sample immediately turned orange/brown after being agitated which confirms a positive reaction for Amphetamines. After Test A was completed Test U was conducted. Once again a small sample was placed inside the pouch and was sealed. Located inside are three ampules which are broken from left to right with the pouch being agitated for 30 seconds in between each ampule being broken. Immediately after the third ampule was broken and agitated the test turned blue which confirms a positive reaction for Methamphetamines. Pictures and video was taken of the positive results as evidence. At 2030 the testing of the Amphetamines/Methamphetamines was concluded with the positive results. At this time the narcotics was once again weighed and again fluctuated between 1-2 grams. It was then placed into evidence bag #B0000072605 and was sealed by Senior Correctional Officer Mumpower and placed into the Evidence Vault as evidence. I Correctional Officer Satterly was then instructed to complete any and all required reports. End of Report
